

TORONTO Transportation Services

Infrastructure Services

Transportation Services maintains the transportation infrastructure including roads, bridges, sidewalks, and boulevards within the city. The division is responsible for all aspects of traffic operations, roadway regulation, street maintenance and cleaning, transportation infrastructure management, road, sidewalk and boulevard occupation and snow removal. The division is committed to serving the mobility needs of the population in a safe and efficient manner.

Policy, Data & Strategic Initiatives

This section leads the development of strategic and operational policies and procedures, as well

as data analytics, collection and management and digital innovation for the Division and divisional partners. The section also leads public and stakeholder consultation for new and innovative policies and provides input on City-wide initiatives and policies. This section is also responsible for coordination of the Graffiti Management Plan and StreetARToronto (StART).

Congestion & Network Management

This section manages traffic congestion and unplanned disruptions on the streets of Toronto for all road users. This entails the planning, design and operation of all traffic control devices and Intelligent Transportation Systems including oversight to the Congestion Management Centre that support all congestion and network management. This section also provides oversight to the in-year coordination of right-of-way access and traffic impact mitigation planning support for public/private constructors and special events in concert with the overall congestion management strategies.

Street Permits

This section manages right-of-way permitting (i.e. utility cuts, road occupancy, curb cuts, and street events), on-street and off-street parking permits, and inspection/enforcement activities related to those permits. This section is responsible for bylaw enforcement for the road right-of-way (i.e. illegal encroachments, and snow/leaf dumping). As well as publication box licensing and enforcement, the Coordinated Street Furniture Program (including bicycle locking rings) and inspections related to the street furniture.

Enforcement and Street Management

This section manages the Traffic Agent Program to improve traffic flow and enhance safety for all road users. It manages the School Crossing Guard Program that provides an important service for families in Toronto by assisting students as they cross the street at key locations. Traffic Operations undertakes traffic investigations and provides oversight of traffic by-laws to assist with traffic flow and pedestrian safety. This section also manages Automated Enforcement program which includes the Red Light Cameras and Automated Speed Enforcement cameras.
