

TORONTO Accounting Services

Finance and Treasury Services

Accounting Services is responsible for the City's annual consolidated financial statements, ensuring that City transactions are recognized and reported in compliance with public sector accounting standards (PSAS). Accounting Services develops accounting policies that ensure that PSAS are met, performs accounting compliance activities, and provides training and accounting treatment advice to Divisions and Consolidated Entities. In addition, Accounting Services performs a number of accounting responsibilities including payment processing, bank reconciliations and financial system support. Accounting Services is responsible for governance of the City's PCI Compliance program.
