

TORONTO Solid Waste Management Services

Infrastructure and Development Services

Solid Waste Management Services is responsible for collecting, transporting, processing, composting and disposing of municipal and some private sector solid waste, including garbage, recyclables, organics, yard waste, electronics and household hazardous waste. The Division manages four collections yards, one maintenance yard, seven transfer stations, six household hazardous waste depots, two organics processing facilities, Green Lane Landfill and 160 former landfills.

The Division's customers include:

- Approximately 870,000 homes and non-residential establishments
 - 462,000 single family residential (includes 11,000 residential units above commercial)
 - 400,000 multi-residential units
 - 7,500 non-residential establishments (includes small businesses, charities, institutions and religious organizations)
- Schools, City Divisions, Agencies and Corporations
- Approximately 10,000 street litter/recycling bins
- 10,000 garbage and recycling bins in City parks
- 1,000 Special Events per year
- Private Industrial, Commercial and Institutional waste accepted at Drop-off Depots and landfill

Policy, Planning & Outreach

Policy, Planning & Outreach is responsible for monitoring trends in the solid waste industry and advising on policy and planning of new programs, program enhancements and new technologies. The section provides technical review and comments on internal and external regulations, legislation, statutes and policies and coordinates research, design and drafting of harmonized programs, policies, eligibility

criteria and bylaws to support operations. It provides Divisional support on setting guidelines and policies for environmental and health and safety compliance.

In addition to working with various orders of government to coordinate new policies and programs and their impacts to residents of Toronto, the section is also responsible for community and stakeholder outreach and working closely with the media to provide messaging on new and upcoming policy and program changes. It also focuses on long-term strategic planning, including residual waste planning and advancing the City's Long Term Waste Management Strategy.

Business Services

The Business Services section manages the Division's financial planning, accounting, procurement, contract management and IT related functions. The Section is responsible for the development and submission of the Division's Operating and Capital budgets, monitoring and reporting on budget variances, and managing the Division's accounting related activities. The Section is also responsible for developing and managing divisional procurement plans and providing support in executing all procurement initiatives. In addition, the Section manages the Division's contract portfolio including oversight and administration of contract life-cycle, management and compliance related activities. Finally, the Section provides internal IT support and is responsible for managing the development, implementation and sustainment of Divisional IT assets and applications.

Collections and Litter Operations (City-Wide)

Collections & Litter Operations provides collection of Garbage, Blue Bin Recycling, Green Bin Organics, Yard Waste, Oversized and Metal Items for single family homes, multi-residential properties, non-residential customers (e.g. small businesses, charities), schools, City Divisions, Agencies and Corporations. They also provide litter cleaning operations on sidewalks across the city, and service litter receptacles throughout city streets and parks. In

addition, they provide services to special events, including the provision of Blue and Green Bins and collection of the materials.

The Customer Service & Waste Diversion Operations section was established to support the Division in its goal of improving customer service and implementing new diversion initiatives.

Community Environment Day events are also overseen by Collections & Litter Operations.

Infrastructure & Resource Management

Infrastructure & Resource Management is responsible for the Division's physical assets throughout their complete lifecycle, from initial design and construction; to commissioning and start-up; to meeting major maintenance and rehabilitation requirements during the life of the asset; to the eventual retirement and disposal of the asset. In addition, the section is responsible for the management of contracts for processing of recycling, organics, yard waste, mattresses and ceramics from the City's collection. Materials are transferred to various facilities (City-owned and non-City-owned) for processing.

This section oversees roughly \$600 million in assets consisting of 1 maintenance and 3 operating yards, seven transfer stations, six household hazardous waste depots, two organics processing facilities, over 750 fleet assets; and over 1.5 million bins and carts.

Transfer Stations and Landfill Operations

Transfer Stations & Landfill Operations is responsible for managing the performance and maintenance of the City's network of seven transfer stations, six household hazardous waste depots, haulage logistics and roll-off services, the Green Lane Landfill, and numerous closed landfill sites. The section is also responsible for the upkeep and repairs of an additional four operating and maintenance yards.

The seven transfer stations are strategically located across the city to allow for the efficient and cost-effective receipt and transfer of all garbage, recycling, organics, yard waste, electronics and household hazardous waste from the City's collection programs, as well as from business owners and residents of the City of Toronto. The waste materials are loaded onto tractor trailers and transferred to various processing facilities and/or to landfill for final disposal.
