

TORONTO Environment, Climate and Forestry

Corporate Services

The Environment, Climate and Forestry Division is the City of Toronto's centre of excellence on key sustainability priorities. We are stewards of Toronto's urban forest, and champions of the City's response to the climate crisis. Our work includes nurturing Toronto's burgeoning circular economy; making our urban landscape greener and more welcoming for all residents by maintaining, protecting, planting and planning a more diverse urban forest; supporting the greening of the City's internal operations; and building a thriving, equitable, and resilient city. Our goal is to help create a city that empowers all communities and maintains Toronto's global leadership in environmental stewardship for future generations.
