Sewer Chamber Works on Spadina Avenue and Dundas Street West

Contract: 23TW-CTS-13CWD
Start Date: October 6, 2025
End Date: November 19, 2025
**Timeline is subject to change.*

The City of Toronto plans to remove existing equipment and install new equipment in the existing sewer chamber via maintenance access on Spadina Avenue (261-283 Spadina Ave.) and at the Dundas Street West intersection.

The sewer chamber is underground and has modulating gates that control the wastewater flow entering an interceptor, which is a deep sewer tunnel that conveys large volumes of wastewater for treatment.

This project is part of the Council-approved 2023-2026 Capital Works Program to renew the City's aging sewer infrastructure and the Don River and Central Waterfront (DRCW) project and will help keep combined sewer overflows out of the Lower Don River, Taylor-Massey Creek and Inner Harbor.

Please see a map of the work area below. The shaded green area shows the footprint of the work, and the shaded yellow area shows the footprint of the construction vehicle storage.

MAP OF WORK AREA

Client: SBWW	Location: Spadina Ave. At Dundas St	Date Drawn: 2024-01-11	MH103-024
Author: Bill Warren	Closest Typical Layout: DI-13	NRPS: 40Km/h	PDO Required: No

Comments: DI-13 to occupy the northbound left turn lane on Spadina Ave. Working hours to be approved by TTC as work takes places inside the manholes located on the TTC tracks. work will only take place while Street cars are not running. A preventative RB-92 and a flagman has been added to stop any rail cars in the off chance there is a miscommunication among the TTC.

All signage and markers to be distanced according to OTM book 7 table B. Distances may adjust to accommodate hills, restricted visibility and other site specific conditions

WORK DETAILS

The City's contractor will:

- Prepare the work area before construction begins
- Remove existing equipment from sewer chamber via maintenance access
- Install new equipment via maintenance access
- Conduct testing, commissioning and training after installation.

WHAT TO EXPECT DURING CONSTRUCTION

- There will be a road closure for Northbound left turning traffic for vehicles on Spadina Avenue. Northbound traffic on Spadina Avenue will be reduced to two lanes. Construction on the TTC streetcar track will commence only when the TTC confirms there are no street cars running.
- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

	Work Hours: Work will take place from 7 p.m. to 7 a.m., Monday to Friday, with work after hours and on weekends as required and in accordance with the City's Noise Bylaw.
	Construction Noise: You may experience intermittent noise and vibration during construction (from vacuum trucks, power generators, air compressors, etc.). All work will comply with the City of Toronto's Noise Bylaw.
	On-Site Communication: There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access. Contractor's staff will be identifiable by their high-visibility company branded clothing. If you need to speak with staff on the construction site, please ask for the Site Inspector.
	Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the work zone. Access for emergency vehicles will be maintained at all times.
	Parking: This project will affect on-street parking. Parking in the active work zone is not permitted as space is needed for construction equipment and materials. If your parked vehicle affects construction work, it will be relocated with no charge to the owner. Please contact parking control for its location at 416-808-2222 .
	Traffic Management: Road users should expect delays and increased traffic on nearby main and side streets. Motorists are reminded that bicycles and cars will be sharing the lane. When driving, please be mindful of vulnerable road users.
	Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Field Ambassador listed below.
	Garbage and Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. Please ensure that you label your bins with your address.
